Table of Contents

Section 1 General		
A.	Objective.....	1 - 1
B.	Application	1 - 1
C.	Definitions	1 - 1
 Section 2 Concept of Equivalency		
A.	General.....	2 - 1
B.	Evaluation Metrics	2 - 1
C.	Evaluation of Alternative Arrangements.....	2 - 2
D.	Evaluation of Novel Features.....	2 - 2
E.	Acceptance Criteria.....	2 - 3
 Section 3 Risk Evaluation Process		
A.	General	3 - 1
 Section 4 Evaluation Objectives		
A.	General	4 - 1
B.	Selection of Evaluation Metrics.....	4 - 1
C.	Comparative versus Absolute Assessment.....	4 - 2
	1. Comparative Risk Assessment.....	4 - 2
	2. Absolute Risk Assessment	4 - 2
 Section 5 Basic Risk Assessment		
A.	General	5 - 1
B.	Development of Basic Risk Assessment Plan	5 - 2
	1. Selection of Risk Assessment Technique	5 - 2
	2. Establishment of Acceptance Criteria.....	5 - 3
	3. Scope of Risk Assessment	5 - 3
C.	Performance of the Basic Risk Assessment.....	5 - 4
	1. Identifying the Risk Analysis Team.....	5 - 4
	2. Preparing for the Risk Assessment	5 - 4
	3. Hazard Analysis.....	5 - 4
	4. Estimation of the Evaluation Metrics.....	5 - 5
	5. Comparative Assessments and the Change Analysis Method.....	5 - 5

D.	Evaluation of Result of the Basic Risk Assessment.....	5 - 5
	1. Evaluation of Comparative Risk Assessment	5 - 6
	2. Evaluation of Absolute Risk Assessment.....	5 - 6
	3. Confidence of the Result.....	5 - 6
E.	Documentation of Basic Risk Assessment	5 - 6
F.	Use of an Existing Risk Model.....	5 - 7
	1. General	5 - 7
	2. Appropriateness of Model.....	5 - 7
	3. Risk Impact.....	5 - 7
Section 6 Detailed Risk Assessment		
A.	General.....	6 - 1
B.	Development of Detailed Risk Assessment Plan	6 - 2
	1. Selection of a Risk Assessment Technique.....	6 - 2
	2. Establishment of the Acceptance Criteria	6 - 3
	3. Scoping of the Risk Assessment	6 - 4
C.	Performance of the Detailed Risk Assessment.....	6 - 4
D.	Evaluation of Results of the Detailed Risk Assessment	6 - 4
E.	Documentation of the Detailed Risk Assessment.....	6 - 5
Section 7 Submittals to BKI		
A.	General.....	7 - 1
B.	Prior to Conducting Risk Assessments	7 - 1
	1. Risk Assessment Plan	7 - 1
C.	Basic Risk Assessment Submittal Requirements.....	7 - 1
D.	Detailed Risk Assessment Submittal Requirements	7 - 2
E.	Review/Approval of Submittals	7 - 3
F.	Life Cycle Risk Management.....	7 - 3
Appendix A	References	A - 1
Appendix B	Risk Analysis Team	
A.	Overview of the Risk Analysis Team	B - 1
	1. Team Leader	B - 1
	2. Scribe	B - 1
	3. Subject Matter Experts.....	B - 1

Appendix C	Risk Models	
A.	Overview of Risk Models	C - 1
Appendix D	Overview of Risk Assessment Techniques	
A.	Hazard Identification (HAZID) Techniques	D - 1
B.	Change Analysis Methodology	D - 1
	1. Typical Analysis Activities for Change Analyses	D - 2
C.	What-if Analysis	D - 4
	1. Typical Analysis Activities for What-if Analyses	D - 4
D.	Checklist Analysis	D - 5
	1. Typical Analysis Activities for Checklist Analyses	D - 5
E.	Hazard and Operability (HAZOP) Analyses	D - 7
	1. Typical Analysis Activities for HAZOP Analyses	D - 7
F.	Failure Modes and Effect Analysis (FMEAs)	D - 8
	1. Typical Analysis Activities for FMEAs	D - 9
G.	Even Tree Analysis	D - 10
	1. Typical Analysis Activities for Even Tree Analyses	D - 11
H.	Fault Tree Analysis	D - 12
	1. Typical Analysis Activities for Fault Tree Analyses	D - 12
I.	Summary of Key Aspects of Risk Assessment Techniques	D - 14
J.	Additional Literature Resources	D - 16
Appendix E	Survey of the Use of Risk Acceptance Criteria	
A.	US Offshore Oil Production Industry	E - 1
B.	US Coast Guard (USCG)	E - 2
C.	US Nuclear Regulatory Commission (NRC)	E - 6
D.	US Department of Defense (DOD)	E - 8
E.	US Department of Energy (DOE)	E - 10
F.	United Kingdom Health and Safety Executive	E - 12
G.	International Maritime Organization (IMO)	E - 13
